

Dear Camper,

It's me, Molly ! I'm at  **CAMP**  **noggin**  .

This week, we're being scientists  !

I love  to write  letters  - I hope you love  to read them!

My friends  and I found some bugs  . This is a stink bug  - it makes a smell  if it is scared  - kind of like a skunk  ! What kind of bugs  have you

seen at camp?

I slept  in a tent  last night  - we saw  a lot of stars  . What do you see  at night  when you look at the sky  ?

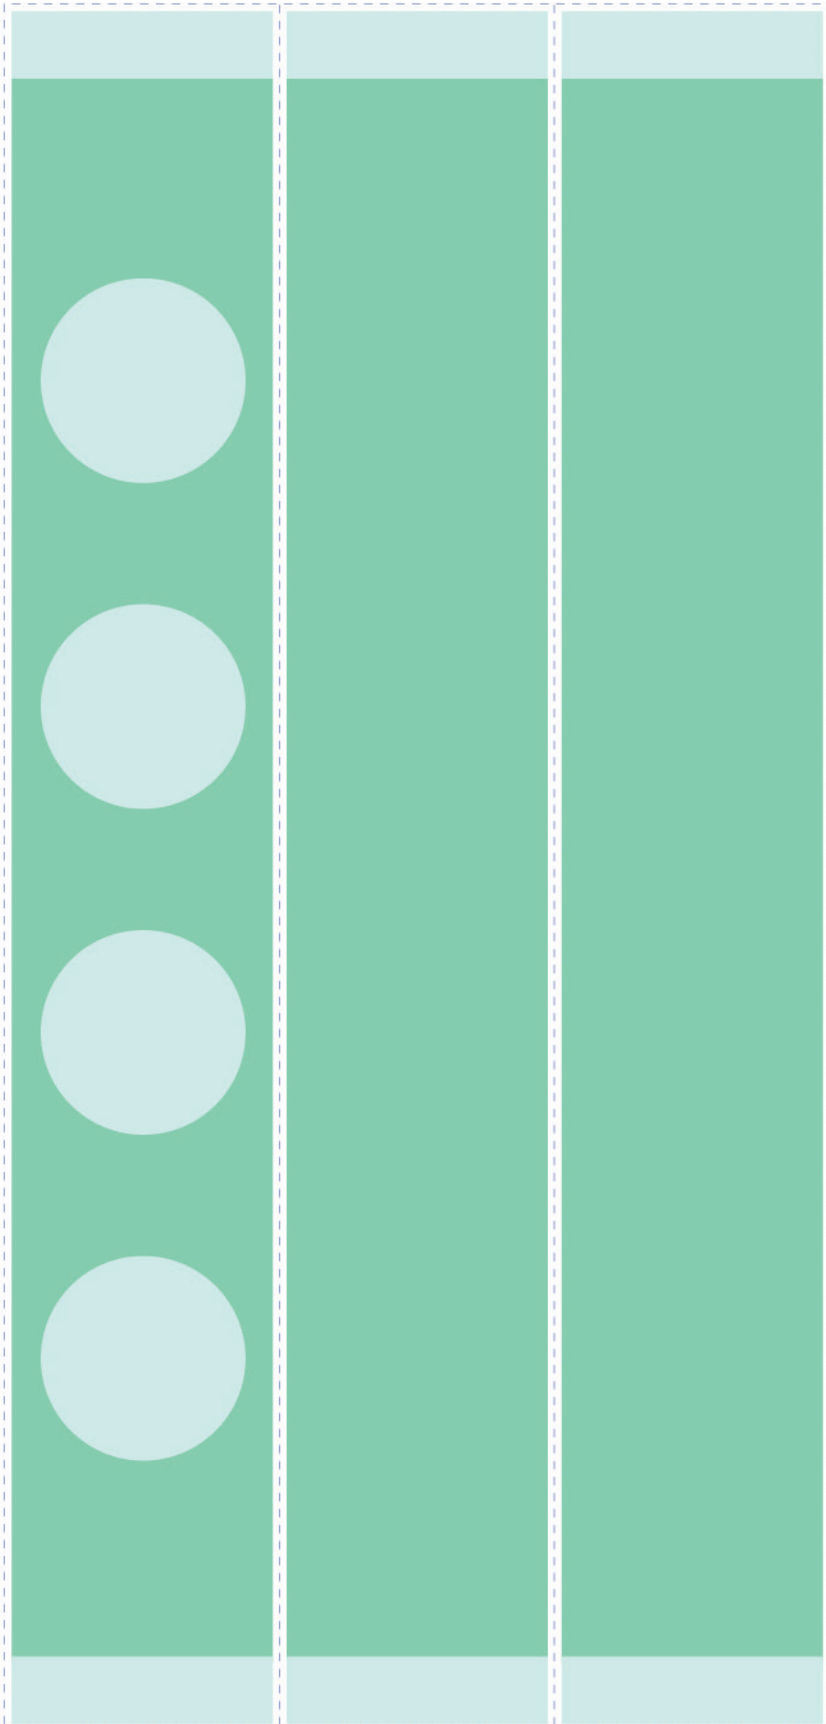

Please write  back and tell me about camp - I can't wait to get your letter  !

Your friend,

Molly

Congratulations, Camper!

You earned your Scientist Badge! Way to go! Make your Camp Noggin belt by cutting on the lines and gluing the pieces together. Then glue on your badge!

CUT

GLUE

Here are your goggles,
Scientist! Cut them out
and wear them when
you're doing your
science experiments!

Silly Scientist Story

Get ready for some silly science! Fill in the blanks to the story below with your scientist- giggle away!

_____ (your child's name), The _____ (a describing word, like silly or hungry) Scientist

Once upon a time there was a _____ (describing word) scientist named _____ (your child's name). _____ (your child's name) liked to do experiments to learn how things work.

One day, _____ (your child's name) found some _____ (name of a toy) and wanted to make them grow. S/He planted _____ (a number) of the _____ (name of a toy) in the _____ (name of a room in the house) and _____ (a number) of the _____ (name of a toy) in the _____ (name of a room in the house) and gave them _____ (name of a food) every day. The scientist watered the _____ (name of a toy) for _____ (a number) days until something grew! It was _____ (name of a color). _____ (your child's name) watered the seeds for _____ (a number) more days and saw a beautiful _____ (name of a color) _____ (name of a plant). The _____ (a describing word like silly or hungry) scientist now knows how to make a _____ (name of a toy) grow into a _____ (name of a plant)!

The End
